PROFILE SUMMARY

3+ years of experience in software testing, development and business analyst. Proficient in manual testing with strong skills in react JavaScript frameworks, and Node.js back-end technologies. Experienced in agile methodologies, codeless automation with selenium and the complete software testing lifecycle (STLC). Adept at documentation writing, bug reporting, team collaboration, and fast-learner.

SKILLS

Testing & Business Analysis	Write and Execute test cases Test scenarios Test scripts User Stories Use Case Diagrams (To map out system functionalities) Requirements Traceability Matrix (Tracking requirements through development)
Testing Types & Tools	Functional Integration Regression Selenium Webdriver Jenkins TestNG J-unit Postman HTTP methods (GET, POST, PUT, DELETE) Zephyr Squad
Programming Skills	JavaScript Python Node.js Java C# HTML CSS
Frameworks	Express.js Robot-Framework Selenium Microservices architecture Pub/Sub systems
Defect Tracking & Debugging	Jira , Bugzilla, TestRail Chrome Developer Tools Firebug
Methodologies	Agile (Scrum) STLC
Soft Skills	Analytical thinking Problem-solving Team collaboration Communication Attention to detail
Database & Analysis Tools	SQL Database Design Query Optimization Confluence Microsoft Excel (Advanced functions, pivot tables, data analysis)
Language	English (Professional) French (Conversational) Hindi (Native) Gujarati (Native).

WORK EXPERIENCE

Full stack developer | Rebrewed Tech Pvt. Ltd. | May 2023 – July 2024

- Designed and maintained the pubsub-gateway and pubsub-client to manage message-driven architecture, enabling publish and subscribe mechanisms for microservices and client state transactions.
- Developed authentication-helper, an authentication module responsible for generating and validating authentication tokens, ensuring secure access for services.
- Implemented job-scheduler, a module for scheduling tasks across various VM microservices, ensuring efficient job execution and task management.
- Worked on socket-client to provide a real-time communication framework using web Sockets, improving client-server interactions.

Business Analyst (Internship) | Ethnobeauty, Paris, FRANCE | February 2022 – April 2023

- Oversaw the end-to-end process analysis for order preparation, ensuring efficient workflows and timely fulfilment of customer orders.
- Conducted market research and competitor analysis to support the development of strategic business initiatives, contributing to a 30% increase in sales and enhanced brand visibility.
- Utilized data analytics tools like Google Analytics to assess website performance, providing actionable insights that improved user experience and boosted conversion rates.
- Collaborated with cross-functional teams, particularly marketing, to align business strategies with customer needs, driving engagement and sales growth.

Tester QA | ZURU Tech, India | June 2019 – December 2019

- Participated in **test planning** and **requirement analysis** meetings to understand application features and identify suitable test cases for automation.
- Developed and maintained automated test scripts using **Selenium** and **Python** to validate web application functionality.
- Created and maintained Page Object Models (POM) to separate test logic from UI elements, improving maintainability and readability.
- Reported, tracked, and managed bugs using JIRA, ensuring timely resolution and improved product quality.
- Actively participated in **Agile ceremonies** (stand-ups, sprint, retrospectives) to collaborate with developers, QA engineers, and product managers.

Junior Manual Tester | EpatriotCRM, India | June 2018 – May 2019

- Designed and executed test cases for **functional and regression testing** of a web application.
- Performed **cross-browser testing** using **Browser Stack** to ensure compatibility across Chrome and Firefox.
- Reported and tracked defects using **Jira**, collaborating with developers for issue resolution.
- Participated in **UAT testing** to ensure that end-user requirements are match.
- Participated in daily stand-ups and **sprint** meetings, contributing to **agile** development processes and ensuring alignment with project goals.

EDUCATION

GLOBAL MBA, Information Technology Project Management, Bac+5 | Feb 2020 - Feb 2022

Collège De Paris | Digital Collège, Paris, France

BACHELORS OF COMPUTER ENGINEERING, Bac+4 | Aug 2014 - May 2018

Gujarat Technological University, Gujarat, INDIA

CERTIFICATION

API Test Automation with Postman
Codeless Test Automation with Selenium IDE
Setting a Foundation for Successful Test Automation
The Whole Team Approach to Continuous Testing
Web Element Locator Strategies
Introduction to Robot Framework
